

Draw the Circle Week #2: Dream Big

April 15, 2018 ~ Joshua 6:1-5

Dreaming big:

1. God wants to plant the _____ of his dreams in our hearts, minds, and spirits.
2. God plants the seeds, but we must _____ the _____.
3. God's directions sometimes don't seem to _____.

We must be willing to do whatever it takes to follow God's dream for us.

- 1) God will not ask us to do something that _____ his word.
- 2) God is more concerned with our growth and obedience than with our _____ and _____.
- 3) If we think of _____ as a four-letter word, we're going to have a hard time with God's dreams.
- 4) God-sized dreams are beyond our _____ and our _____ to bring them to pass. This gives God the opportunity to show up and show off His power!

Discerning God's Dreams for Us

- It might start with praying this simple prayer, "God, what do you want me to dream?"
- It might start with paying attention to that nagging idea you've never been able to get out of your head.
- It might start with the topic that tugs at your spirit and moves you to tears every time it comes up.

- Dare to ask God about his dream for your life. (This may be a huge step...and God understands. It's no coincidence that I am encountered with this idea right now. It's God's time!)
- Write it down and begin to think, dream, and envision what it would be like if that dream came to pass.

- Commit yourself to tending the garden when God plants the seed.
- Share your dream with someone you can trust.
